

Frequently Asked Questions:

- Q: Where can I find information and updates on the Science Club?
A: Please check the Science Club Website at www.discoveret.org/scienceclub/ for up-to-date information.
- Q: If my company sponsors this club, what benefits are included?
A: Your company will receive the recognition that reflects their contribution level on the club website and in the monthly club handouts.
- Q: Will my company's contribution be tax-deductible?
A: Your donation may be tax-deductible. All funds for Science Club are administered by the Oak Ridge/Knoxville Local Section of ANS. The Section is a public nonprofit corporation that qualifies as an exempt organization under Section 501 (c) (3) of the Internal Revenue Code of 1954 (or the corresponding provision of any future United States Revenue Law).
- Q: How is the money spent?
A: Each member is given a basic box of supplies when they register. Each month, throughout the school year, an experiment unit is sent home. There are eight units planned, each including a handout and supplies. These units cost ~\$2/child in supplies to prepare. Printing the handouts is an additional and significant expense.
- Q: What type of file should be submitted for company logo?
A: Preferred format is .ai (Adobe Illustrator). If not available, any image file type (jpg, gif, tiff, etc)
- Q: How many students are expected to participate?
A: In the first 6 months, the science club had 360 members. For the 2006-2007 school year, we are anticipating 600 students, as we will have three additional schools participating.
- Q: If my company donates materials, how many items should be submitted?
A: We are planning for 600 members. If individual items are being ordered, please send enough for 600 children. If bulk materials are donated, please make sure that when divided it will be enough for 600 children.
- Q: What type of advertisement/display can companies present?
A: Platinum level contributors will have their company logo on the website and will be recognized in the club handouts. Contributors of materials particular to units will be recognized in the "special thanks" section of the unit handout. It is acceptable for any company who is sponsoring the club in any way to send in items such as pens, stickers, pencils, etc. with the company logo to be placed in the basic supply kit or the unit kits.

PRIMARY SCHOOL SCIENCE CLUB

Q: When does the check need to be sent?

A: Please provide the check no later than July 30, 2006.

Q: Who should the check be made out to and where should it be sent?

A: Please make the check out to "Science Club" and mail it to:
